Incomes Register

What is Incomes Register?

Incomes Register is an e-service. Sign in and identify yourself using e.g. online banking codes or mobile certificate. You can view your earnings, benefits and pensions paid to you. Data is usually available in the Incomes Register within five calendar days after the payment.

Register data is used in various situations

Over 400 organizations use register data. For example Kela (Social Insurance Institution of Finland), Tax Administration and Finnish Immigration Service can use register data as grounds for decisions. Using Incomes register data makes processes faster and easier.

What do income data say?

You can view your income data, e.g.

- Earnings payments
- Benefits
- Unemployment allowances
- Pensions

Incomes Register extract

You can order an Incomes Register extract in PDF. It is free of charge and takes approximately 10 minutes to generate.
